# MIGHTY BLAST SHATTERS RIPPLE ROCK

## BIG BLOWUP CAUSES 15 FOOT HIGH TIDAL WAVE

## Mild Shock Wave Hits Island Areas

By AL MARKLE and H. L. JONES  
Canadian Press Staff Writers

CAMPBELL RIVER, B.C. (CP)—A mighty charge of high explosive—man's greatest non-atomic blast—was set off today in the heart of Ripple Rock.

The tremendous explosion, designed to decapitate the west coast's worst underwater shipping menace, shook the blast area of Vancouver Island. This community of some 3,000, eight miles to the south, felt only a mild shock.

Houses suffered for a split moment but there was no other recognizable effect here.

In a great swirling mass, a giant water-spray blossomed from the Rock sharp at the scheduled hour of firing—9:31 a.m. PST.

The water, rock and debris shot thousands of feet into the air, and a great smoke cloud fanned out, forming a picture-like curtain. From observation bunkers, where the press and distinguished visitors watched, it appeared the firing was a success.

But it will be some hours before a definite report can be made. "It looked a success," an engineer on the project said.

A survey ship prepared to move in to make tests.

Seconds after the count-down, watchers saw a giant spray of water shoot skyward and a pall of heavy grey smoke, tinged with brown from nitrous oxide—a product of the explosion of the nitramex 2H—blanket Seymour Narrows, 150 miles northwest of Vancouver.

A tidal wave 12 to 15 feet high roared to the shoreline.

The shock wave took six seconds to reach cameras in an observation bunker 7,000 feet from the rock.

JUST IN TIME

The big blow was set off just in time—minutes later the area was deluged by rain, which could have caused delay.

It was this heavy rain-laden overcast standing between Campbell River and the narrows seven miles north at the time of the blast, that apparently helped lessen the shock on this area.

People who had cut their power and gas lines, removed pictures from the walls and left their doors and windows open needn't have bothered.

The ground shock was so slight that many people gathered in groups outside their homes, tensely awaiting the big blow didn't know that it had gone off.

UNAWARE OF BLAST

Minutes after many were still standing outside, unaware that it was all over.

INVESTIGATE BREAK-IN

Penticton police are investigating a report that a tool shed at the CPR yard in Penticton was broken into. A company representative told police there was no loss of property.

## Service Vote Results Listed

OTTAWA (CP)—Following is the Ontario constituency where the result indicated by the civilian vote was altered by the service vote. Figures give service vote, with the total civilian-plus-service vote in brackets. All votes are complete.

Renfrew North—Forsyth (L) 431 (10425); Hunt 163 (10222). The results in western constituencies where there were tight races:

Ontario  
Fort William—Badanai (L) 129 (9914); Chiorli (CCF) 6 (4953); Magnuson (Lab-P) 0 (214); Widdall (PC) 61 (9798).

Kenora—Rains River—Bendickson (L) 179 (11998); Robertson (PC) 82 (11783); Welsby (CCF) 5 (3500).

Manitoba  
Winnipeg North—Patrick (L) 153 (5740); Ross (Lab-P) 2 (1503); Smith (PC) 99 (19629); Stewart CCF 60 (19423).

British Columbia  
Vancouver—Kingsway—Brownie (PC) 97 (11885); Froese (SC) 25 (1653); King (L) 151 (2620); MacDonald (CCF) 35 (11531).

OTTAWA (CP)—Service vote by parties (percentages bracketed):

PC	31,144	(36.4)
Lib	49,250	(57.2)
CCF	3,440	(4.0)
SC	1,870	(2.2)
Others	129	(0.2)
Total	85,833	

(Canadian Press party standing by provinces based on the service-plus-civilian vote)

## Easter Services to Mark Resurrection

JERUSALEM (AP)—The Resurrection of Christ—man of peace—will be commemorated in Easter services this weekend in a world troubled by a nuclear-age cold war.

Millions of Christians in Old Jerusalem, in many other lands and even far north of the Arctic Circle, will find comfort and reassurance in the message that "the Lord is risen."

It is not only a holy day, but a cheery harbinger of spring weather in many regions that suffered a harsh winter. It is a day for wearing colorful new finery in Easter parades. For children it is the day of the Easter bunny and Easter eggs.

For many it is a time for travel and family reunions.

Jerusalem, a traditional gathering spot for tourists and pilgrims at Easter, is bustling with visitors for the first time since 1955. Middle East strife and tensions held down attendance the last two years, but with the atmosphere now relatively calm, Jerusalem's hotels were filled to capacity.

POPE'S MESSAGE

Thousands of visitors are in Rome for Easter services, and many will gather in St. Peter's Square to hear the annual Easter message of Pope Pius XII. It is expected to be a renewal of his plea for peace.

The Pope's address will be carried to millions by radio and by Eurovision, a television hookup in several countries. Vatican radio will rebroadcast the address in 24 languages.

Radio Free Europe Friday began broadcasting Easter messages by American clergymen to people behind the Communist Iron Curtain.

10 Die in House Fire

JERSEY SHORE, Pa. (AP)—An explosion and fire destroyed a two-story home on the outskirts of this town early today, taking 10 lives. Eight of the victims were children.

A neighbor said Torance Flook, about 34, and his children were standing at a window on the second-floor when a dresser fell in front of the window.

That was the last time they were seen.

ACTRESS HYSTERICAL

## Daughter Kills Lana's Suitor

HOLLYWOOD (AP)—Lana Turner, in complete hysterics, early today paced back and forth in the living room of her Beverly Hills mansion—grieving not for her slain gangster boy friend but for her daughter alone in a jail cell.

"That's what really kills her,"

U.S. May Be Hurt by Growth Of Oil Refining

WASHINGTON (AP)—Fear was expressed in Congress this week that the United States may be hurt by growth of foreign refining unless imports of oil products are curtailed along with crude oil imports.

Representative Frank Icard (Dem. Tex.), member of the House of Representatives' ways and means committee, pointed to this possibility in introducing a bill to limit oil imports—both crude and refined products—to the 1954 ratio of imports to domestic production.

Icard plans to ask consideration of the bill by the committee as an amendment to the pending reciprocal trade agreements extension act when the committee goes behind closed doors, probably late this month or early in May, to put the extension legislation into form for offering to the House.

WOULDN'T MARRY HIM

The friend, who asked anonymously, said Lana had no intention of marrying Johnny Stompanato. He said that Jack touched off the argument Friday night during which Cheryl rammed a butcher knife into Stompanato's abdomen.

Stompanato, 42, had been Miss Turner's steady romance for much of the last year. He was with her in London when she made a picture there.

They went together to Paris and then directly to Lana's home in Acapulco, Mex., where they sunned for two months.

Beverly Hills Police Chief Clinton Anderson said Lana told him "she was fearful of Stompanato when they were abroad."

The chief said Lana had not previously reported the beatings.

ARMED SERVICE VOTE

## Liberal Upsets Tory

OTTAWA (CP)—The armed services vote changed Monday's election results in only one of the Commons' 265 seats, giving Liberals 49; CCF 8.

After Monday's civilian voting, Conservative Stanley J. Hunt had a margin of only 65 votes over Mr. Forgie in the two-way Renfrew North fight.

But the service voters gave the Liberals 431 votes to the Conservatives' 303, allowing Mr. Forgie, MP for the constituency since 1953, to retain his seat by an over-all majority of 203. The final service-plus-civilian count: Forgie 10,452; Hunt 10,222.

Mr. Hunt resigned his Ontario legislature seat to seek federal office. He had represented Renfrew North in the provincial House continuously since 1943.

85,833 SERVICE VOTES

The Liberals received 57.2 per cent of the 1958 vote, Conserva-

## Protests Mount in Nuclear Test Issue

By WILMOT HERCHER

WASHINGTON (AP)—East and West traded verbal brickbats Friday on the issue of halting nuclear weapons tests. Government officials taunted and glibed at each other.

Meantime, within the Western world, groups opposed to nuclear test blasts dramatized their stand with legal moves and demonstrations.

A number of scientists, churchmen and others filed suit against Washington officials to halt U.S. tests, and anti-bomb demonstrators marched in New York and London.

At the government level, Soviet Premier Khrushchev denied Russia's suspension of nuclear tests is a propaganda gimmick, as

President Eisenhower described it, and said: "If Eisenhower really thinks we have stopped atomic and hydrogen bomb tests for propaganda reasons, then why don't he and other Western statesmen try the same propaganda and halt the test themselves."

LIFE, DEATH MATTER

Khrushchev told a crowd in Budapest that stopping the tests is not only a matter of life and death but would be a first step toward disarmament and would promote solution of other urgent world problems.

He called on Prime Minister Macmillan as well as Eisenhower to "follow the example of the Soviet Union, prove your good intentions."

The U.S. state department, replying, recalled that Russia rejected a United Nations resolution last November calling for international agreement on a step-by-step disarmament program.

Press officer Lincoln White noted the Russians also blocked efforts to carry through a resolution setting up a 25-nation disarmament commission.

White said the Soviets had turned back "the greatest expression of intention of goodwill" which had been made in recent months.

Driver Remanded On \$500 Bail in City Police Court

A Vancouver motorist was remanded on \$500 bail in Penticton police court today when he pleaded not guilty to "having care and control of a car at Naramata while impaired by alcohol."

Accused was James Regis LaVoie. Hearing of the case was set for April 11.

TODAY'S BULLETINS

Eight Forest Firemen Burned to Death

ADELAIDE, Australia (AP)—It was black Easter Saturday for south Australia today—eight men were burned to death in raging forest fires and two picknickers were killed when a cave collapsed at a beach resort. The fires caught three truckloads of forest firemen at Mt. Gambler, near the Victorian border. Eight were killed and nine others badly burned.

Police Arrest 22 on Drug Charges

TORONTO (CP)—Police have arrested 22 persons in metropolitan Toronto in the last two days on drug charges. They say arrests will continue today and Sunday. The 22, including 10 women, face 44 charges of selling drugs. About 150 capsules believed to contain heroin have been seized.

Support Prices to be Announced

OTTAWA (CP)—Prime Minister Diefenbaker today disclosed that support prices for four commodities will be announced Monday. They will be the first supports under the new Agricultural Prices Stabilization Act. Mr. Diefenbaker made the disclosure to reporters at nearby Uplands Airport as he and Mrs. Diefenbaker prepared to leave for a one-week holiday in Bermuda.

Police Say Slayer Known By Housewife

VANCOUVER (CP)—Police said today they believe the slayer of a Vancouver housewife was known to her and lives in the neighborhood.

Mrs. Evelyn Roche, 39, a mother of two, was found in a lane a block from her east-end home Thursday night, her body stabbed seven times and three slashes across her throat.

The Vancouver police commission has posted a \$1,000 reward for information in the slaying.

Police said a 10-year-old boy found the woman's purse in a garbage can Friday near the murder scene. The can had been thoroughly searched by police nine hours before and the purse was not in it.

Deputy Chief Gordon Ambrose said the discovery strengthened the police belief that the murderer was from the same neighborhood.

## Castro Prepares For 'Total War'

HAVANA (AP)—Fidel Castro's "total, implacable war" against Cuban President Fulgencio Batista began today as a war of nerves.

This Caribbean island was tense but relatively calm. The big push "to be free or to perish" as Castro put it in his declaration of war against the dictator president—may not come until after Easter holidays end Monday morning.

Some rebel sources in Havana claim the Roman Catholic Church has been friendly to the 31-year-old rebel leader's cause, and that he would not want to antagonize the hierarchy by open attacks during religious celebrations.

There have been no sign of Castro's long-threatened call for a general strike. Rumors in Havana had said the bearded insurgent leader would issue the call from his mountain hideout Tuesday.

Castro claimed 50,000 supporters would then pour into the streets, halt all commerce and do battle with the police and the army.

KILLING AUTHORIZED

But the government, with the backing of the powerful Cuban Confederation of Labor, has vowed there will be no strike. Workers have been authorized to walk off the job. Those who strike will lose their jobs permanently. Employers have been threatened with jail if they close down their businesses.

UNAWARE OF BLAST

Minutes after many were still standing outside, unaware that it was all over.

INVESTIGATE BREAK-IN

Penticton police are investigating a report that a tool shed at the CPR yard in Penticton was broken into. A company representative told police there was no loss of property.

U.S. Air Force Fires Seventh Atlas Missile

CAPE CANAVERAL, Fla. (AP)—The United States Air Force fired its seventh Atlas ICBM several hundred miles down its missile test range today.

Fifteen minutes after the noon launching the air force said the limited range test of several hundred miles appeared normal throughout the entire flight.

The giant missile took off in a cloud of white steam and great flash of flame.

It rose majestically, slowly at first and then swiftly, into heavy scattered clouds about 10,000 feet above the launching site.

The missile, trailed by bright yellow flame, disappeared into the clouds 30 seconds after launching, reappeared five seconds later, still climbing vertically, and thereafter was visible once or twice momentarily.

However, the roar of its powerful engines could be heard in the launching area for two minutes.

The air force did not indicate the nature of today's test. It was believed to involve testing of propulsion and guidance equipment.

## "HII EASTER BUNNY"

Examining with awe, the traditional Easter Bunny, is Kevin Malurmo, 2½, of 335 Woodruff Ave. Little Kevin is wondering what kind of eggs and candy the happy looking rabbit is going to bring him on Easter Sunday.

The three Marys on Easter morning.

"The Lord is risen indeed."—St. Luke 24:34.

## Changes in Tory Cabinet Delayed

OTTAWA (CP) — Prime Minister Diefenbaker plans no cabinet changes until his return to the capital from a Bermuda holiday.

Mr. Diefenbaker was to leave Ottawa by plane at 8 a.m. EST today from Uplands airport, accompanied by Mrs. Diefenbaker. The prime minister attended church Friday and relaxed at his Sussex Street home following a strenuous daylong cabinet session Thursday.

After the meeting Mr. Diefenbaker told reporters there will be no announcement of cabinet changes until he returns from his Bermuda vacation. He said he did not know how long he will be away.

During the election campaign Mr. Diefenbaker said more cabinet portfolios would be assigned to Quebec members if that province's Commons representation was boosted by the electorate.

He said that while he is away he will "give some thought to various matters" and that he hopes to be in a position on his return to Ottawa to make some announcements.

### SHUGGS OFF RUMOR

The prime minister shrugged off a published report that Justice Minister David Fulton, who also holds the immigration and citizenship portfolio, will take over the finance ministry now held by Donald Fleming.

"You apparently read that, too," he said to the reporter who questioned him about it.

Mr. Fleming, he said, will present the budget—always done by the finance minister—at the coming session of Parliament.

Later Mr. Fulton said there was no foundation to the report. Mr. Fleming said some reporters "haven't enough to do."

Mr. Diefenbaker indicated the first session of Canada's 24th Parliament will open Thursday, May 8, provided all the writs

## Nursing Registry Proves Successful

OTTAWA (CP)—Night and day, a group of nurses here is busy with telephone instead of thermometers.

The staff of nine registered nurses work shifts to keep the community nursing registry at the beck and call of hospitals, homes, doctors and individuals.

Under director Irene Johnston, the registry operates as a placement agency for nurses available for private duty work.

It is also a telephone-answering service for doctors, an after-hours receptionist for the Victorian Order of Nurses, and a medical emergency consultation service.

## New Mineral Club Formed

OTTAWA (CP)—Some collect stamps, others paint, but a newly-formed Ottawa group is interested in minerals and gems as a hobby.

The Ottawa Valley Mineral Club, formed six months ago, boasts a membership of 34. Members are amateur mineralogists, amateur lapidaries or gem cutters and polishers, collectors of gems and the mineral crystals from which they are cut.

Club meetings are addressed by geologists and gem experts. A planned summer project is field trips for collection of gem-and-mineral-bearing rocks.

By organizing as a club, amateur lapidaries, mineralogists and collectors say they complement one another, exchanging stones, information and efforts.

## Soviet Leader Warns Against New Uprising

STALINVAROS, Hungary (AP) Nikita Khrushchev warned Hungarian Communists today that if a new revolt comes they must not depend on Russian help.

Speaking to an outdoor crowd of about 20,000, in the steel-mill town built by the Communists and named for Stalin, the new Soviet premier said:

"You should not think that if the counter-revolution comes again you can depend on the Russians to come again and help. You must help yourselves."

He spoke without notes. Apparently he did not mean to imply that he unconditionally banned future armed support.

Much of his speech was devoted to the help the Soviets gave Hungarian communism in the 1956 revolt. Foreign military observers estimate that there are still 60,000 to 80,000 Soviet troops in the country.

## Coast Aldermen Asked to Resign

VANCOUVER (CP) — Two city aldermen have been asked to resign from the Greater Vancouver water board regarding the fluoridation issue.

The demand for resignation by Ald. Frank Baker of Jack Cornett and George Miller follows their refusal to vote on the fluoridation resolution according to council instructions.

The resolution—instructing the Greater Vancouver water board seek legal power to allow fluoridation as a majority of the municipalities requested it—was defeated by an 8-6 vote Thursday at the water board meeting.

Ald. Cornett voted against the resolution. Ald. Miller left before the vote.

Ald. Baker said Friday "I feel that anyone that disobeys council orders and who flouts the wishes of the people by opposing the fluoridation issue should be removed."

Ald. Cornett and Miller earlier asked to be removed from the water board rather than vote as instructed by council, but Mayor Iltis took no action on their request.

# Commission Ready for Food Price Hearings

By BERNARD DUFRESNE  
Canadian Press Staff Writer  
OTTAWA (CP)—Is the middleman's share of the Canadian consumer's food dollar fair or excessive?

That is the question facing a royal commission of six men and a housewife which is investigating price spreads of food products.

Price spreads are the difference between what the producer gets for his food products and what the consumer pays the corner grocer or the chain supermarket.

The difference goes, in varying degrees, to such middlemen as processors, distributors, packagers, wholesalers, transporters and labor.

The royal commission, headed by Dr. Andrew Stewart, president of the University of Alberta, already has started collecting available statistical and background information. Beginning this month it will hear what farmers, processors, wholesalers, retailers and others have to say on the matter.

Public hearings are scheduled for Vancouver April 9-11, Edmonton April 14-15, Winnipeg April 17, Regina April 21, Fredericton April 28-29, Charlottetown April 30, Halifax May 1-2, and St. John's, Nfld., May 5-6.

Tentative autumn dates for further hearings are the second half of September in Ontario, mid-October in Quebec and mid-November in Ottawa.

Apart from gathering statistical information, the commission's researchers are planning two separate studies.

One involves the marketing of a number of commodities selected from six main groups: meats, fruits and vegetables, dairy products, eggs and poultry, miscellaneous agricultural products and fish.

The particular commodities to be studied in detail:

Wheat (bread, flour); beef cattle (beef); hogs (pork, bacon); chicken (fowl, broilers); eggs; milk and cream (fluid milk, butter, cheese, milk powder, evaporated milk); potatoes; tomatoes (canned, fresh); corn (canned, frozen); carrots (fresh); peas (canned, frozen); strawberries (canned, frozen, fresh); apples (fresh); maple syrup and maple sugar; sugar beets (beet sugar); various products of agriculture (soups, baby foods); sockeye salmon (canned); halibut (fresh, frozen); whitefish (fillets); lobster (boiled, canned); cod (fillets); haddock (fillets).

Jesus said unto them, Thus it is written, and thus it behooved Christ to suffer, and to rise from the dead the third day:

And that repentance and remission of sins should be preached in his name among all nations, beginning at Jerusalem.—Luke ch. 24:46-47.

### BIG CONSUMER ITEMS

The commission plans to concentrate on this limited number of foods because they are big consumer items or form a large part of the incomes of producers. The study will cover a commodity's marketing system and the sometimes-numerous processes from

producer to consumer. The other study will delve into the various functions common to the marketing of agricultural and fisheries products, including storing, transportation, packaging, advertising, grading, processing, wholesaling and retailing.

## Easter Brings New Hope In Our Troubled World

This is the Easter season when our thoughts turn to its significance in the light of our Christian faith. All of us should observe Easter, symbolic of the victorious Christ.

Are we seeking to know the full meaning of this holy season? If we are we will find it set forth clearly in Psalm 51:10: "Create in me a clean heart, O God; and renew a right spirit within me." We are thinking of those 40 days our Lord spent in the wilderness in fasting and communion with the Father prior to entering on His ministry. There He met temptation and evil as we in life meet them, but to Him evil had no power to thwart His divine purpose. He knew where He was going and the purpose of His mission. In Christ was the power of redemption; in His victory over Death rests our

hope.

To create in us a new and contrite heart means to make us over. It has been said that when a man rises from his knees a better man his prayer has been answered. The great purpose of the Gospel is to change lives and now is the appointed time for mental and spiritual house-cleaning. Outward observances have their place but the thing that really matters is the betterment of our own lives. This is something creative, positive. As Joel exclaimed: "Turn with all your heart to God" — and "rend your heart and not your garment."

And so during Easter may we be honest with ourselves to become new creatures indeed. This is the sort of change our troubled world sorely needs.

## The Governor-Generalship

A report from Ottawa suggests that Hon. George Drew, at present the Canadian high commissioner to the United Kingdom, may be appointed the next governor-general. The suggestion will occasion some surprise. There is no doubt he would occupy the office with distinction, but the appointment of so well-known a political figure as the former Conservative leader might bring the vice-regal post into the realm of party politics.

It is true that the present governor-general, Mr. Massey, had a Liberal connection, but this was several decades before he became the incumbent of Rideau Hall and he was not identified in the public mind with political activities. Nor has there been any taint of such in the exercise of his duties as the Queen's representative. Doubtless Mr. Drew would be equally scrupulous, nevertheless his appointment could be construed as a reward for political services.

This possibility became inherent when Mr. Massey became the first native-born governor-general. There was nothing wrong with such a precedent excepting perhaps the difficulty of

finding a suitable candidate for this office outside the political realm. For a number of understood reasons there seems to be little hope that the Queen Mother Elizabeth would be available for the post, as has been suggested, and would have been the best possible choice. If the practice of a British nominee is to be resumed, however, and this need not necessarily be so, consideration might well be given to a distinguished personality from one of the other Commonwealth countries. A system of exchange of governors-general along this line would add to the unity of the Commonwealth and ensure impartiality of appointment.

There can be no objection nevertheless to a native Canadian succeeding Mr. Massey, but it would be better if this were free of political connotations. Without prejudice to Mr. Drew, he could scarcely escape the associations attached to a long-standing political career, and his appointment could invite the establishment of a pattern whereby the office of governor-general became a reward for party services. It would be a mistake if the vice-regal post ever fell into this category.

## Cancer Treatment Progress

Although most people are cautious of reported cancer cure claims these days, we are, nevertheless, encouraged by the latest announcement from cancer experts that U.S. scientists are on the threshold of a break-through in the treatment of cancer with drugs.

It is not our intention to raise false hopes in the hearts of cancer victims. But consider these statements from two leading scientists in the fight against cancer and you will note the amazing progress that is being made in the treatment of certain types of cancerous growths.

Dr. John R. Heller, National Cancer Institute director, reveals in a report from Washington, that one drug — methotrexate — had "successfully suppressed" a solid tumor for the first time. On no less an authority than Dr. Lowell T. Coggeshall, president of the American Cancer Society, scientists have found drugs which caused cancer

to regress for a time. He adds they are "not yet cures" but predicts that sooner or later drugs would be found that could cure particular types of cancer.

The institute, it is explained in the report, is screening about 45,000 chemicals and compounds a year in search for cancer weapons. Several had shown "good possibilities" and 44 new drugs are being tried out on human patients. In fact, anti-cancer drugs already discovered mean more months of painless, useful life for many cancer victims. And scientists are still searching the earth for the miracle drugs to do to cancer what penicillin did to pneumonia and streptomycin to tuberculosis.

While scientists are promising nothing, new chemical discoveries, we believe, warrant the cautious hope that a cure for some cancerous growths may now be just a matter of time.

## This is How it Happens

This is the story of the man who lived by the side of the road and sold hot dogs. He was hard of hearing so he had no radio. He had trouble with his eyes so he read no newspaper and saw no television. But he sold good hot dogs. He put signs up on the highway telling how good they were. He stood on the side of the road and cried "Buy a hot dog, mister?" And people bought. He increased his meat and bun orders. He bought a bigger stove to take care of his trade.

He finally got his son home from college to help him. But then something happened. Said his son: father, don't you ever watch television or listen to the radio? Haven't you been

reading the newspapers? There is a big recession under way. The European situation is terrible. The domestic situation is worse. Everything's going to pot." Whereupon the father thought: "Well, my son's been to college, he reads the paper, watches television, and listens to the radio and he ought to know."

So the father cut down on his meat and bun orders, took down his advertising signs and no longer bothered to stand out on the highway to sell his hot dogs. And his hot dog sales fell almost overnight. "You're right, son," he said to the boy. "We certainly are in the middle of a big recession."

SYMBOL OF FREEDOM

Four members of the RCAF and a French farmer pay their respects to a symbol of faith and freedom beside a roadway near Grostenquin, France. Overhead, four Sabre aircraft of the RCAF's NATO Air Division in Europe provide a reminder that Canada, along with its NATO partners, supports its hope for peace with military strength.

## OTTAWA REPORT

## U.S. Foreign Policy Completely Unguided

By PATRICK NICHOLSON  
Special Correspondent to the Herald

OTTAWA—The Western World's Public Menace Number One, John Foster Dulles, has been described as "The Unguided Missile."

That may be. But there can be no doubt that the foreign policy of that U.S. Secretary of State is completely unguided. This is made very clear from the infamous case of the 1,000 Canadian cars which he prevented Canada from selling to Communist China.

In Ottawa, M. W. Sharp, Deputy Minister of Trade and Commerce, said that the Canadian government "probably" would have granted an export permit covering that sale, if it had been asked.

Thus there can be no doubt that the government ban which prevented Canada from obtaining this export order, was that imposed from Washington. Under the U.S.A. "Trading with the Enemy" Act, it would be necessary for a U.S.A. parent company to obtain an export licence from the U.S. government, before a Canadian subsidiary of that parent company could sell goods of any kind to Communist China.

Mr. Dulles, the architect of American Foreign Policy, is inconsistent on two counts here. For this ban, which stems from his policy, does not apply equally to all communist countries; nor does it uniformly cover the waterfront.

Of the big trading nations of the Free World, Britain has been doing the most trade through the Iron Curtain. She has sold cars and trucks to Communist China in the past year, and she has likewise sold cars and trucks to Poland and Czechoslovakia. What is interesting about this is that the Ford Motor Company of England, which is a subsidiary of the American Ford Corporation, has sold its products to those Communist countries in Europe. It has been able to do this because the American ban does not extend to those countries, only to China.

At the same time British automobile manufacturers, controlled

by British capital and not subservient to U.S. parent companies, have been selling cars and trucks to Czechoslovakia and to China.

Why can U.S. companies trade with Poland and Czechoslovakia, but not with China?

Liberal Leader Lester Pearson told an election audience that he did not agree with the U.S. blanket ban on exports; he would like to see Canada sell all export lines to Communist China, with the sole exception of course of strategic materials. Automobiles are not strategic materials in his view. This attitude closely matches the expressed views of Conservative Leader John Diefenbaker.

Canada has recently been selling wheat to China, without the handicap of Mr. Dulles' veto.

This all adds up to Alice-in-Wonderland inconsistency in Mr. Dulles' unguided foreign policy, with the products of American companies being shipped to some Communist countries but not to others; with Red nations able to buy cars from some companies in Britain but not from others; with Canada selling non-strategic wheat to China, but prevented by the U.S.A.—which controls 98 per cent of our automobile industry—from selling non-strategic cars to China.

It is discouraging to us, and dangerous to the world, to see the foreign policy of the most powerful free nation based on

blind adherence to rote rather than on common sense.

But of even more shattering surprise to us must be this revelation of foreign interference in what is the domestic concern of Canada only.

U.S. government officials in Washington recognize that Ford of Canada is a Canadian company, operating on Canadian territory, and subject only to Canadian law in theory. They have admitted that they have trespassed outside their sphere of authority by imposing U.S. policies on a Canadian company. But they insist that American citizens must be held responsible, when foreign subsidiaries under their control break a law which is a law of the United States, even though it is not a law of the country where such subsidiaries operate.

## Recalls History Of Ripple Rock

By H. L. JONES  
Canadian Press Staff Writer

CAMPBELL RIVER, B.C. (CP) Ripple Rock, the notorious underwater mountain scheduled to be blown up today, was first charted by Captain George Vancouver in the vessel Discovery in 1792.

Records disclose that the British explorer was more concerned with the hostile Yuculta Indians who lined the east side of 2,500-foot-wide Seymour Narrows than with the dangerous rock that sits within the narrows.

He named the channel Yuculta Channel after the Indians. It was later renamed Seymour Narrows for Sir William Seymour, a Royal Navy commander.

The narrows with the twin-peaked rock that sets up whirlpools big enough to swallow a fishing boat, has been used by shipping since about 1875. It is on the main Inside Passage shipping route between Puget Sound and Alaska and some 2,000 large ships and many smaller ones pass through each year. They carry an annual estimated load of 175,000 passengers and \$300,000,000 worth of cargo. Ripple Rock is a menace to every trip.

Since the early days it is estimated the rock has sunk or severely damaged at least 20 large ships and hundreds of smaller ones and taken 114 lives. One of the latest wrecks was that of the Canadian government survey ship William J. Stewart which holed herself on the rock while taking soundings there in 1946. She suffered \$500,000 damage.

Proposals to remove Ripple Rock have ranged all the way from suggestion it be bombed from the air, torpedoes, and shattering with big mortars from shore. One senator even suggested it be pulverized with an atomic bomb.

In 1931 a department of marine commission heard representations from Vancouver shipowners for removal of the rock. But Victoria industrialists didn't favor removal seeing the rock as the only suitable foundation for a bridge across the narrows to link Vancouver Island with the mainland.

The commission recommended removal of the rock, but there was no action until 1943 when attempts were made to drill dynamite holes from a surface barge. But the barge was torn from its moorings. A later attempt to steady the barge with overhead cables secured to spar trees ashore also failed. It was abandoned after close to \$1,000,000 had been spent.

## B.C. ESTATES

Appointment

L. H. SHANTZ  
Speaker of the House

The appointment of Mr. L. H. Shantz as representative for B.C. Estates Limited in the Okanagan and Kootenays was confirmed today by Geoffrey Whitelaw, Managing Director. Mr. Shantz will be returning from Victoria to the Okanagan following completion of his current duties as Speaker of the British Columbia Legislature at the end of this month to take over operations from the B.C. Estates Limited Vernon office.

## SUN LIFE ASSURANCE COMPANY OF CANADA

Head Office: Montreal

## NOTICE TO PARTICIPATING POLICYHOLDERS

of

## SPECIAL GENERAL MEETING OF THE COMPANY

Notice is hereby given that a Special General Meeting of the Sun Life Assurance Company of Canada will be held in the Assembly Hall on the Seventh Floor of the Company's Head Office, 1155 Metcalfe Street, Montreal, Canada, at 2:30 p.m. on Tuesday, May 6th, 1958 to consider and, if deemed advisable, to confirm Special By-law "D" made by the Board of Directors of the Company on April 1st, 1958, the text of which follows:

### Special By-law "D"

"(1) This by-law shall not become effective until sanctioned by the Treasury Board of the Government of Canada and on such sanction the Company, for the purposes of Section 90A of the Canadian and British Insurance Companies Act, shall exercise the powers therein conferred to purchase shares of the capital stock of the Company, subject to the terms and conditions of the Act and of this by-law.

(2) The date set for the commencement of purchase of shares shall be the fifteenth day of May, 1958, or the day following the day this by-law is sanctioned by the Treasury Board, whichever day is the later, and no shares shall be purchased by the Company prior to this date.

(3) The directors, by resolution, shall fix a price per share to be paid by the Company for the purchase of shares and shall submit this price together with this by-law to the Treasury Board and if the Treasury Board is satisfied, as required by the Canadian and British Insurance Companies Act, that the price fixed is fair and reasonable in the circumstances and sanctions this by-law this price shall be the price to be paid by the Company for shares purchased by it and this price shall not be changed without the approval of the Minister of Finance for Canada.

(4) A register shall be kept giving particulars of offers for sale of shares received by the Company and the price to be paid for shares purchased by the Company shall be the fixed price in effect the day the offer for sale was received at the Head Office of the Company or the day set for the commencement of purchase of shares, whichever date is the later.

(5) The Company shall purchase all shares offered for sale under the terms hereof but if at any particular time by reason of the limitations imposed by the Canadian and British Insurance Companies Act the amount available for the purchase of shares is insufficient to purchase immediately all the shares offered for sale, the amount available shall be applied in approximately equal proportions among the shareholders offered for sale, but in calculating the proportions there shall be no splitting of shares, and the offer for sale of any shares not purchased shall remain in effect and maintain its place on the register unless and until withdrawn by the shareholder by notice in writing to the Company.

(6) All shares purchased by the Company shall be paid for in cash by the Company in full at the time of purchase but if the seller of the shares so requests the Company may agree to make payment in whole or in part by promissory note or notes of the Company payable at the fixed or determinable future time not later than ten years from the date of the making thereof and bearing a rate of interest fixed by the directors and approved by the Minister of Finance for Canada.

(7) The voting rights attributable to the shares purchased by the Company shall be exercised by such one of the policyholders' directors as is designated for the purpose by a majority of the policyholders' directors.

The Board of Directors has fixed a price of \$325 per share for the purchase of shares, subject to the approval of the Treasury Board of Canada.

Every person who has contracted with the Company for a participating policy, and who holds such a policy upon which no premiums are due, is a member of the Company and is entitled to attend and to vote in person or by proxy at general meetings of the Company. The policyholders' directors, deeming the proposal to be fair and equitable, intend to vote the policyholders' proxies they now hold in favour of the confirmation of the By-law. Any policyholders who qualifies as a member may obtain a blank form of proxy on request therefor in writing to the Secretary of the Company.

The proxy of a policyholder must himself be a qualified policyholder and entitled to vote, and to be valid an instrument of proxy must be filed with the Secretary of the Company prior to April, 1958.

Dated at Montreal this first day of April, 1958.

F. J. CUNNINGHAM  
Secretary.

### COUPLE CELEBRATES ANNIVERSARY

Friends and family members were present to honor Mr. and Mrs. A. A. Riley of this city when they arrived at the home of their daughter in Summerland Thursday afternoon to be honored at a surprise tea party on the occasion of their 45th wedding anniversary. Married in Winnipeg June 3, 1913, the couple came to Penticton to reside in 1928. Mr. Riley, who was engaged in the lumbering industry prior to his retirement in 1949, and

Mrs. Riley, have both taken an active interest in church and community affairs during their thirty years residence here. They have two children, Mrs. Muriel Walton of Summerland, and Jack of Penticton, and ten grandchildren. Mr. and Mrs. Riley were the recipients of many congratulatory messages and flowers from their wide circle of friends in commemoration of the happy occasion.

### Diamond Jubilee Chapter Members Are Honored by Provincial IODE

Mrs. K. A. Davenport, regent of the Diamond Jubilee Chapter, Imperial Order Daughters of the Empire, has been requested to respond to the address of welcome at the formal opening of the 45th annual convention of the Provincial IODE taking place at Vancouver April 14, 15 and 16.

The local chapter has also been honored with the appointment of Mrs. J. B. Feeney to the provincial organizing secretaries committee. Mrs. R. T. Leah, standard bearer, will join them in attending the forthcoming coast convention at Penticton.

### LET'S EAT

#### Easter Ham with Tulip Decoration

"Nature is certainly grand!" chuckled the Chef, as he skillfully placed the final orange tulip on the Easter ham which he slipped into the oven to cook. "This tulip decoration for the ham is effective and well worth the little extra time it takes."

#### EASTER HAM WITH ORANGE TULIPS

Bake 8 or 9 lb. half-ham as directed on the wrapping. Slice off any rind. Score the fat surface with a tulip-shaped cookie cutter. Outline the tulips with whole cloves.

Combine ¼ c. each unsulphured molasses and prepared mustard to make a glaze. Brush half over the ham.

Bake 15 min. Brush with the remaining glaze. Carefully stick an "orange tulip" in each clove outline; bake 30 min. more.

**ORANGE TULIP**  
With the tip of a paring knife, cut the peel from 2 Florida oranges into 4 quarters and care-

fully remove. Reserve the orange sections for use in the cabbage slaw. Shape each quarter-orange peel into a "tulip" with a tulip cookie cutter.

Place in a saucepan with 2 c. water. Bring to a boil, cook 20 min. and drain.

Add ½ c. sugar, ¼ c. water, 1 tsp. vinegar, 1 tsp. whole cloves and 1-in. piece stick cinnamon. Stir gently over low heat until the sugar dissolves. Bring to boiling and simmer 30 min.

Remove, cool and place the "tulips" on the ham as directed.

**EASTER SUNDAY DINNER**  
Orange-New Cabbage Slaw  
Easter Ham with Orange Tulips

Pan-Roast Sweet Potato  
Green Beans Amandine  
Chocolate Layer Ramekins  
Coffee Tea Milk

All measurements are level; recipes proportioned to serve 4 to 6.

**CHOCOLATE LAYER**  
In a saucepan, combine 3 oz. room-soft cream cheese and ¼ c. water. Cook-stir until simmering. Remove from the heat.

Separate 2 eggs. Beat yolks light; stir rapidly, a little at a time, into cheese mixture. Stir-cook 1 min. Do not boil.

Remove from heat. Stir in 6 oz. semi-sweet chocolate morsels. Continue stirring until melted. Beat egg whites stiff but not dry. Gradually beat in ½ c. sugar, ½ tsp. vanilla and ¼ tsp. cinnamon. Fold into chocolate mixture.

Layer this, 2 tbsp. at a time, alternately with 1 tbsp. graham cracker crumbs into each of 6 buttered ramekins or custard cups. Make 3 layers of the semi-sweet mixture and 2 of the crumbs.

Bake 20-25 min. in a moderate oven, 350 degrees to 375 degrees F.

Serve warm in the ramekins with light cream, or cold, topped with flavored whipped cream and chopped nuts.

# Women

Saturday, April 5, 1958 THE PENTICTON HERALD 5

### AROUND TOWN

#### Shower of Gifts Miss Carol Eckert

Miss Carol Eckert was the honored guest when Mrs. George Broderick and Miss Corrine Broderick of Fairview Drive entertained at a miscellaneous shower Wednesday evening.

The honoree, who will become the bride of James Martin Thompson this evening, was the recipient of many lovely gifts contained in a gaily decorated Easter basket.

Among those honoring Miss Eckert were Mrs. Harold Eckert, Mrs. D. Prince and Marjorie, Mrs. L. R. Wyles, Miss Joyce Herrick, Miss Moira Thompson, Miss Patty Young, Miss Loretta Benoit, Mrs. David Clue, Mrs. Evelyn Rainbow and Miss Rose Marie Crowe.

Mr. and Mrs. Maurice Finnerty with Leslie and Patrick are spending the Easter holidays visiting at Aldergrove with Mrs. Finnerty's mother.

Mr. and Mrs. George Kent are coming from Vancouver to spend the Easter weekend visiting the latter's parents, Mr. and Mrs. J. A. M. Young, and her sister, Mrs. John Bella, and Mr. Bella.

The B.C. division of the Canadian Red Cross Society has been

honored with the recent appointment of provincial work chairman, Mrs. A. G. Mercer of Vancouver, as vice-president of the National Women's Work Committee at Toronto.

The appointment was merited by Mrs. Mercer's long-time volunteer service with the society and the high standard of work produced in B.C. under her supervision.

Miss Liz Titchmarsh, a member of the Osoyoos elementary school teaching staff, is spending the Easter holidays in Penticton visiting her parents, Mr. and Mrs. E. A. Titchmarsh. Jack Slingsby has come from Osoyoos to spend the Easter weekend with them.

Rev. H. B. Barrett of the Anglican Theological College at Vancouver, is a guest at the home of Mr. and Mrs. John Coe, Poplar Grove, while in Penticton for various Easter services and meetings. Mr. Barrett, son of the late Rev. Canon Harry Barrett, a well-known former pastor in this city, addressed a service yesterday, Good Friday, at St. Saviour's Anglican Church, and will be the guest rector at the Sunday morning worship period beginning at 11 a.m.

### KEEP IN TRIM

#### Overweight Woman Eats to Reduce

If you feel you have reached the point of no return to shapely normal weight, today's electrifying letter about a woman with uncommon courage may actually change your life. It has been said that inside every fat lady is a slim one wildly signaling to be let out. This is unquestionably true of any of you who are 100 pounds overweight.

When calories are cut below the amount nature uses for energy needs, weight is lost. Calorie arithmetic doesn't fail when applied. What "challenge" can unlock the will for action so that you follow through to free yourself of the burden of fat?

The incentive is an individual matter—but it must be strong. The reducer in today's story got mad, fighting mad. A ridiculing remark shocked her into action. She writes:

"I have had such good results with reducing, I feel I should try to help other women. I had been overweight for more than 15

years—I started to put on weight after my third child was born, and the scales kept right on climbing. I am now 48, and although I am only 5'1" tall, I did weigh 223 pounds.

"On May 24, 1956, I started to eat to reduce. One year later, on May 24, 1957, I weighed 123 pounds. I did not want to report my story until I had proved to myself I could keep my weight normal. Today, almost a year later, I weigh 118 pounds and I never felt better in my life."

At this point in my reading of her letter I picked up the telephone and called Gaitersburg, Maryland, to talk with Mrs. Elizabeth Mills, our reducer extraordinary.

"Is this the courageous woman who reduced 100 pounds?" I inquired.

"Yes, I lost 100 pounds," she replied, very matter-of-factly. "What was your incentive to reduce? What helped you make up your mind?" was my second question.

"This may sound silly, but a man on a hillbilly program advertising some reducing pills got me started," she told me.

"I asked, puzzled, 'No, no—I didn't take any kind of medicine. But he made me mad—fighting mad. He said that an overweight person looks like a big bag of sawdust and made other insulting remarks. Well, I felt as though he were speaking directly to me. I got so mad at his words that I decided to reduce.'"

"Tomorrow's story gives the diet by which Mrs. Elizabeth Mills was able to take off 100 pounds in a single year."

Beware of the refrigerator that "just fits" if you have to measure too closely to fit it into a niche, the refrigerator or freezer may not function properly.

The reason: there must be some room for air to circulate around the appliance to remove heat from the condenser.

### PEACHLAND NEWS

At the semi annual divisional meeting of Guide leaders and other members of the association, Sharon Kopp was presented with her "All Round Cord," the second highest award in Guiding, while Marva Champion was presented with her "First Class" badge. Commissioner Blagborn of Summerland made the presentations.

Another drive is being organized to collect good used clothing. Guides, Brownies and the LA to the association will take part.

Commissioner Blagborn announced that the "cookie" money was to be turned in by the companies and packs by May 20.

Following the business session refreshments were served by the local association. The next divisional meeting is to be held in Naramata in the fall.

On April 1, a meeting of the campsite committee was held at the home of Mrs. Durick in Summerland. Mrs. Blagborn reported that \$2,300 had been collected to date from Peachland, Summerland, Penticton and Naramata. Sid Hudge, of the finance committee, felt that all moneys on hand should be turned in to him by May 20. The next meeting of the committee will be held in Summerland on May 15.

Gwen Garraway, a student at York House, Vancouver, and John Garraway, who attend the Vernon Preparatory School, are spending the Easter holidays with their parents.

Mrs. Steve Scammell and her two sons, Peter and Tony, left yesterday to spend the Easter holidays at the coast.

Mrs. M. Ferguson, Trepanier, is leaving on Thursday for two weeks holiday to be spent in Vancouver visiting Mrs. A. Town and Mrs. E. G. Aitkens.

### SUMMERLAND

#### Delegate Presents Red Cross Report

Mrs. J. Y. Towgood, delegate to the Red Cross provincial council meeting in Vancouver, this spring gave a report to the regular workroom meeting of the Summerland branch in the Anglican parish hall Tuesday afternoon.

Thirty-five were present and a new member of the executive, Gordon Dinning of Trout Creek, and Mrs. Dinning were introduced. Mr. Dinning has been active in Red Cross work at the coast and was treasurer of the annual campaign in Vancouver for three years.

Mrs. Towgood spoke interestingly of the tremendous scope of Red Cross in its international policies so that aims are similar wherever Red Cross functions. She mentioned reunion of refugees in Europe, facilitated by the society, children whose families were found, and the great work of mercy continually in action.

In Canada, the speaker told of 95 per cent of workers are volunteers and only five per cent salaried.

There are 98 branches in B.C., Mrs. Towgood continued. At the conference it was suggested that the time has come for the government to take over

the blood donor clinics although there is a question as to whether as many donors would come out as under the Red Cross. When the service was started in February, 1947, thirty thousand pints were donated. In 1957 there were 380,000 pints given and this year it is hoped to obtain 400,000. The potential need of 800,000 pints was foreseen.

One of the reports showed that the Junior Red Cross in Canada had given close to \$600,000 for international relief.

W. J. Raikes of Okanagan Mission was appointed provincial representative for this area at the conference, the delegate noted.

Mrs. L. de Satge is available to speak on home nursing classes wherever needed, the meetings were told, and dentists were being sent to outpost hospitals for the first time this year. So far this year the B.C. division has met 300 calls for disaster relief for burned out families, etc.

Mrs. Towgood spoke of the depletion of stock caused by Hungarian relief and the work of building it up again has been a heavy one. Speaking especially to the workroom staff she reported that at the convention she learned that there couldn't be too much clothing provided for children, nor for layettes.

## PETER TOMLIN'S SPORTS DIARY

The fate of the 1958 New York Yankees could well rest with Al Lopez and his Chicago White Sox.

In 1957, the Pale Hose were able to take only 8 games from the Yanks during the season while losing 14. Their inability to beat the Bronx Bombers cost them the American League flag as they ended the season trailing the pennant winning Yanks by eight games.

Casey Stengel, Yankee manager, would like to win the American race again this year and, perhaps, gain revenge on the Milwaukee Braves in the World Series. Last October, you will recall, the proud Yankees suffered a severe blow to their pride when the upstart Braves made them look bad in the fall classic.

In spite of the fine New York showing in spring training games this spring, Stengel has been casting worried glances in the direction of the White Sox camp. Beating Chicago is a must for the Bombers and Chicago shows every sign of being a tough customer during the forthcoming campaign.

Still, a look around the Yankee camp causes even the most apprehensive supporter to smile.

Bill Skowron and Mickey Mantle, the biggest offensive threats in camp, have been punishing opposition pitchers with monotonous regularity. Skowron has been especially impressive. The Moose is hitting at a .415 clip and has seven homers, three of them with the bases loaded.

Tony Kubek, American League rookie-of-the-year in 1957, and veteran Gil McDougald will combine to protect the middle of the infield with Bobby Richardson providing relief.

Casey will probably platoon Jerry Lumpe, a left handed hitter, and Andy Carey, a righthander at third base.

Norm Siebern, the new left fielder is the most important addition to the team. Siebern, a 24-year-old graduate of the Denver farm club, has been hitting at a .300 pace in the exhibition games.

Elston Howard, a .255 hitter last season, has been a pleasant surprise with his steady hitting and improved catching. Yogi Berra will definitely get more rest this year.

Pitching coach Jim Turner should have a much easier summer than he had last year with the New York mound staff.

Whitney Ford, who compiled an 11-5 record in '57 despite missing half the season with a sore shoulder, has been free of trouble this spring.

Don Larsen, Bob Turley and Tom Sturdivant will be the other regular starters. Art Ditmar, Johnny Kucks and Sal Maglie will start and relieve.

Diminutive Bobby Schantz, 11-5 last year, will probably do some spot starting in addition to helping Bob Grim in the bullpen.

Most impressive of the newcomers has been Ryne Duren, former Vancouver Mountie a member of the Denver farm team last season.

If the proud Yankees can keep Mickey Mantle healthy, if one or two of the rookies come through in the manner expected of them, if Tony Kubek doesn't succumb to the sophomore jinx, if the pitching staff lives up to expectations, if Casey Stengel's brain holds out and, probably most important, if they can maintain their mastery of the White Sox, we should see the Yankees in the World Series again this fall.

## RANGERS READY FOR ESQUIMALT

Eager to show their wares against Vancouver Island competition in the form of the Esquimalt club are these three members of the Pentiction Queen's Park Rangers soccer team. Left to right are, Graham McLaren, Helmut Gedig and Rod Dewhurst. The combined Pentiction-Vernon All-Stars will face Esquimalt in an exhibition tilt at Queen's Park Sunday afternoon at 2 o'clock.

## Peacosh Scores as Vancouver Takes 2-0 Lead in Semi-Final

By THE CANADIAN PRESS

Winnipeg Warriors, champions of the Western Hockey League Prairie division, are finding things tough on the coast.

At Vancouver Friday the Canucks, Coast division winners, tripped Alf Pike's club 5-3 to open a 2-0 lead in their best-of-seven WHL semi-final. It was the only league action of the night.

Tonight Seattle plays in New Westminster and Calgary in Edmonton in semi-final rounds.

The Winnipeg-Vancouver series resumes in Winnipeg Monday.

Jackie McLeod and Phil Maloney—Vancouver's money players throughout the season—again led the Canucks.

McLeod scored twice as Vancouver ran up a 3-0 first-period lead before a crowd of 5,080. Captain Maloney added one goal and three assists.

Former Brandon Regal Elliot Chorley and Walt Peacosh, who came to Canucks for the playoffs from the Okanagan Senior Hockey League, got the others in the fast, sometimes ragged game.

Howie Glover, Earl Ingarfield

and Gordie Redahl connected for the Warriors, whose defence weakness was apparent.

McLeod opened the scoring for Vancouver while Winnipeg rear-guard Kent Douglas was sitting out his first minor penalty. He scored his second goal on a back-hand from about six feet off the corner of the net.

Peacosh was uncovered in front of the goal when he finished off a three-way play with Bill Folk and Maloney while Douglas was serving his second penalty.

Vancouver enjoyed a wide edge in the first period.

In the last minute of the second period, a period in which the Warriors were badly outclassed, they struck for two goals. At 19:11 Glover's pass from behind the net trickled in off goalie Marcel Pelletier's skate. Twenty-five seconds later Redahl pulled Pelletier aside to score.

Billy Mosienko, Winnipeg's most consistent scoring threat, although held pointless, and Witluk each saw Pelletier take seemingly sure goals from them early in the third.

However, at 5:13, Clearly picked up a loose puck in Warrior ice and passed to Chorley in front of the net. Chorley made no mistake.

Ingarfield got that back at about the 15-minute mark, after Pelletier had stopped three successive point-blank shots from Redahl.

Maloney iced the game for Van-

couver with less than two minutes remaining.

In the last third period Mikulan and Vancouver's Ed MacQueen traded roundhouse lefts and rights. The little net minder rushed out swinging after being pushed about as Canucks swarmed around his crease. Referee Scotty Morrison gave each a major penalty.

## Milt Confident Of Boston Win

BOSTON (AP)—Boston Bruins New York coach Phil Watson has need a victory over New York used Bathgate more than 30 minutes in each of the last two final Stanley Cup playoff games. Bathgate was a 30-goal scorer for the Rangers during the regular National Hockey League schedule.

The Rangers, second-place finishers in the regular season compared with Boston's fourth spot, have their backs to the wall. The Bruins lead the best-of-seven series 3-2 and the Broadway Blues face the task of winning two straight.

"All we need is to put two good ones together," Boston coach Milt Schmidt said. "We've been an in-and-out club all season, but we played two good games in a row this series. We won the second game in New York and the third one here. I think we can do it again."

### SHOWING THE WAY

Fleming Mackell, Doug Mohs, Jerry Toppazzini and Don McKenney are the Bruins' scoring leaders in the series to date.

Mackell got a goal and an assist in Thursday's 6-1 victory over the Rangers; to bring his total to 10 points in five games. He has two goals and eight assists and is tied with Maurice Richard of the Canadiens for the playoff scoring leadership.

Mohs tied Flash Hollett's record of nine playoff points by a Boston defenceman. Hollett collected nine assists in nine games in 1943. Mohs has two goals and seven assists in five contests so far.

McKenney and Toppazzini each tallied goals Thursday night and have five each for the series.

Andy Bathgate, New York workhorse, is one of the key figures in Rangers' plans tonight.

### RANGERS TOLD OFF

After a practice Friday, Watson said he also "got a lot of things off my chest" in a pep session with the Rangers.

He reeled off statistics to show the New Yorkers had played below their ability in the playoff. Most striking was the fact that when they had a manpower advantage, the Rangers yielded a goal in each of the last three games. In 70 regular season games, they gave up only four such goals, Watson said.

The 58 Fairlane Club Sedan—beautiful yet low priced member of Ford's fine Fairlane series.

## 58 FORD offers Built-in Value

at no extra cost to you!

### HERE ARE THE FACTS:

In the low price three  
It's Ford that offers you these 9  
extra value features as standard  
equipment in every model!

LOOKING for value in your new car? Then look to the 58 Ford. There's built-in quality, "straight down the line" . . . and it's there at no extra cost to you!

EXTRA VALUE! Ford's new swept-back, ball-joint front suspension is specially-designed to soak up the bumps . . . give a softer, easier ride on even the roughest roads.

EXTRA VALUE! Ford's giant-grip, double-sealed brakes bring you added confidence. Double sealing helps keep water and dirt out of the brake system for longer life.

EXTRA VALUE! Deep, resilient foam-rubber padding lines the front seat of every Ford car. Greater comfort for passengers is the result . . . less driving fatigue on long trips.

EXTRA VALUE! New Magic Circle steering takes the work out of wheel-turning, responds quickly and smoothly to a touch of your finger. Parking's no longer a problem, and driving's pure pleasure on any road.

EXTRA VALUE! Ford's roof and body insulation is the best in any modern car. Heat, sound and weather are thoroughly damped out for a far more quiet, comfortable ride.

EXTRA VALUE! New, deep-offset hypoid rear axle is an improved Ford design. Husky yet low-slung, it permits a lower car level without sacrificing interior leg room.

EXTRA VALUE! Variable rate rear suspension cuts "squat" and "dip" on fast starts and stops. Keeps you on an even keel through the sharpest turns.

EXTRA VALUE! Ford's front hinged hood is designed for safety and easy accessibility to engine. Reduces danger of hood flying up while you're driving . . . cuts time and labor costs during repairs.

EXTRA VALUE! With the new "Inner Ford" you ride deep down inside the chassis for greater comfort and stability. The frame is welded, braced and bonded to form one incredibly tough unit.

## VENTURI LEADS

## Leonard Close to Masters' Leaders

By WILL GRIMSLEY  
AUGUSTA, Ga. (AP) — Billy Joe Patton, the ebullient amateur says he has no illusions about winning the Masters golf championship although he is just one stroke back of leader Ken Venturi going into today's third round.

Venturi has a 140, Patton a 141 along with Bill Maxwell.

"Four years ago when I nearly won, I was in a fog," the 36-year-old Morgantown, N.C., lumberman added. "I was all charged up. This time I just feel peaceful. I have no idea of shooting any more rounds like I did yesterday."

No amateur ever has won this rugged 27-hole test of the golfing elite but Patton shook the equilibrium of the proud pros in 1954 and Venturi, then an amateur,

gave them nervous jitters again two years later.

Now this pair—Venturi, a mature pro of 26, and Patton, still the wise-cracking, scrambling amateur—are fighting neck-and-neck for one of the sport's most wanted prizes.

Venturi, the first day leader at 68, had to score birdies on the three finishing holes to maintain his one-stroke edge at 140. Patton shot a 69 to move into a tie with Billy Maxwell, a young Texas pro, at 141.

Two other players were just another stroke off the pace at 142, Stan Leonard, perennial Canadian pro champion from Vancouver, and silver-haired Bo Wininger, tournament tourist from Odessa, Tex., were ready to move into the lead.

## Western Final to Start on Monday

WINNIPEG (CP)—The Western Canada Allan Cup hockey final between Kelowna Packers and Winnipeg Maroons doesn't start until April 7 but the Maroons' coach has already declared Kelowna will take a lot of firepower to lick and he's not certain he's got the ammunition.

Coach Bill Robinson can be pardoned for a bit of pessimism.

He was a Winnipeg Maroons' player in 1954 and 1956. Winnipeg went to British Columbia for the Western Canada final. Both times Maroons played the champion of the Okanagan Senior Hockey League. And both times the Okanagan boys were the victors.

This year the best-of-seven series will be played in Kelowna, B.C. The dates are April 7, 9, 11, 12, 14 and 16. Date for the seventh game will be decided later.

"Our team is primarily defensive," said Robinson. "The games will be close but I think we'll need a few breaks to come out on top."

Many of this season's Maroons

also were on the team that was beaten in 1956 by Vernon Canadians and in 1954 by Penticton V's—although it took the V's the full seven games to turn the trick.

Newcomers are three juniors picked up for the playoffs, goalie Sugar Jim Henry and forwards Ray Manson, Gord Pennell and Laurie May.

Henry spent 8½ years in the National Hockey League with Boston and New York. Manson was a 42-goal scorer with the prairie division champion Brandon Regals of the Western Hockey League in the 1956-57 season, and Pennell is a former Vancouver Canuck of the WHL.

Winnipeg made the western final by beating Fort William, Ont., Beavers and Red Deer, Alta., Rustlers.

Kelowna made the playoff by winning the OSHL title in a playoff with Kamloops Chiefs and then defeating Rossland Warriors of the Western International Hockey League 4-1 in a best-of-seven series for the B.C. senior hockey title.

## Cambridge Eight Beat Oxford Crew

LONDON (Reuters)—A favored Cambridge University crew rowed in driving rain today easily defeated Oxford in the 104th running of Britain's boat race classic on the River Thames.

Using an orthodox style compared with Oxford's American style shorter strokes, the smooth Cambridge crew pulled ahead early on the 4½ mile course to glide across the finish with a lead of about 3½ lengths.

From the start, the dark blue Oxford eight was unable to match the long, easy pull of the light blues from the rival university.

Oxford used a high-rigged American-style shell called a "banana boat" with its stern and stern high out of the water. The power man in the boat was Reed Rubin, 194-pound six-foot-three American formerly of Yale.

NEVER HEADED  
Cambridge was never headed from the start of the race at Putney Bridge to the end, near Chiswick Bridge in suburban London.

The winning time was 18 min-

utes, 15 seconds, far off the 1948 record of 17:50 established by another powerful Cambridge crew.

Only a few thousand fans turned up for the big free show in pouring rain and thick mist. Usually about 150,000 watch the race.

Cambridge, 20 pounds heavier than Oxford, was stroked by M.B. Laitby of England. He kept his crew moving easily with a polished, elegant stroke.

It was Cambridge's 58th victory. Oxford has won 45 times with one dead heat in 1877.

QUICK LEAD  
After the first two minutes of today's race Cambridge pulled almost a length ahead with an easy stroke of 37 to the minute.

Oxford, with the short American stroke was swinging at 39 to the minute.

Heavy rains had calmed the waters. There was a slight wind blowing against the two shells.

Oxford tried hard to prevent Cambridge going away, and showed great determination in keeping within distance. But under Hammar Smith Bridge they were 2¼ lengths down and already appeared beaten.

## CANADA'S HOPE RUNS THIRD

Canada's hopes of having a candidate in the Kentucky Derby are dimmed as E. P. Taylor's Grey Monarch is a distant third in the Florida Derby. Grey Monarch was sixth and a half lengths behind longshot Lincoln Road, who placed second. The winner, Tim Tam, established himself as a favorite in the Kentucky Derby, May 3. Decision on whether to enter Grey Monarch in the Run for the Roses will depend on his showing in the Wood Memorial at New York, April 26.

## Four Teams Tied in Ladies' Cage Final

SASKATOON (CP) — Calgary Maxwells moved a step closer to a playoff berth in the Canadian senior women's basketball tournament Friday night by knocking over Kitchener-Waterloo El-lottis 44-31.

The victory was Maxwells' second against one loss. If they defeat the winless Winnipeg Orioles tonight they will qualify for a sudden-death final against either Saskatoon Aces or defending champion Vancouver Eilers.

Centre Darlene Currie came up with a dazzling offensive display to personally insure Calgary's victory. The Alberta star collected 27 points.

Evelyn Hamel, who fouled out of the game late in the third loo scorers with 11 points.

The close-checking contest had Elliotts leading 15-8 at the quarter, trailing 21-18 at the half and leading again, 28-25 at three-quarters.

Guard Joan Ham led Vancouver scoring with 13 points. Zoe Robinson clicked for eight and Shirley Topley for seven. Eleanor Schultz picked up 12 for Winnipeg.

Calgary — Nixon (6), Coward, Adams (3), Epton, (2), Gillespie (6), Currie (27), Johnson, Fonech, Southern—44.

Kitchener-Waterloo — Nethercott Rodina (2), Hutcheson, Foell

## EXHIBITION BASEBALL

## Cincinnati Pitchers Hitting Stride; Could Mean Pennant

By THE ASSOCIATED PRESS

The repair job on Cincinnati's pitching staff begun at the close of last season is paying off this spring. And it may enable the Redlegs to nail down a top position in the National League pennant race.

Atrocious pitching threw a wrench into Cincinnati's hopes last year. As a unit, the club finished last in almost every mound department. It had the poorest record in earned runs, 4.62; gave up the most runs, 781; the most hits, 1,486; most homers, 179; compiled the fewest shutouts, 5; and even hit the most batsmen, 51.

The Redlegs hammered a powerful 179 home runs last year but could gain not better than fourth place.

General manager Gabe Paul and manager Birdie Tebbetts put their heads together last October and went into the trading mart.

PURKEY SHOWS STYLE

Bob Purkey, obtained from Pittsburgh, has perked up the pitching staff. So has Harvey Haddix, from Philadelphia. Some other new men are also likely to help. They include Willard Schmidt, Ted Weland and Marty Kutyna from St. Louis and Bill Wright from Baltimore.

Purkey gave up only two hits in a six scoreless inning stint Friday night as Cincinnati defeated Washington Senators 6-3.

In their last 10 games — 5 of which they've won seven and tied one—Redlegs pitchers have given up only 30 runs.

TERRY GOING GOOD

Ralph Terry ran his scoreless

pitching skein to 20 innings as Kansas City beat Pittsburgh 5-1. An error prevented Terry from registering his second straight shutout.

Chicago White Sox nipped St. Louis 6-5 on Sherm Lollar's two-out single in the ninth. The blow scored Tito Francona who had singled and moved to third on a stolen base and an infield out. Bubba Phillips drove in three runs for Chicago with a homer, double and single.

Detroit Tigers played two of their farm clubs. They topped Augusta of the Sally League 4-2 and lost to Charleston of the American Association 7-4.

## Kid Gavilan on Comeback Trail

PHILADELPHIA (AP)—Cuba's Kid Gavilan, showing flashes of the farm club, once earned him the welterweight title, out-punched the veteran Ralph (Tiger) Jones of Yonkers, N.Y., Friday night to win a split 10-round decision at the arena. Gavilan weighed 155, Jones 155½.

Gavilan took another step on what he hopes is the road back to title contention by the simple expedient of landing offener and more telling blows in the televised fight.

The 32-year-old Cuban belied his age as he kept the pressure on the rugged Jones with slashing polo punches in this third meeting of the two veteran campaigners. Gavilan won in 1953 and last February at Miami.

# Boy Wonder' in Chess Acclaimed

By STAN McCABE  
Canadian Press Staff Writer  
WINNIPEG (CP) — Fifteen-year-old Bobby Fischer, now United States chess champion, may be America's answer to Russian chess supremacy, says a former Canadian champion who himself was a "boy wonder."

Abe Yanofsky, five times Canadian champion or co-champion, North American champion in 1942 and British champion in 1953, said that in five years the Brooklyn prodigy will probably be in the world championship contender class.

"He is not the first child prodigy but he is the first who has ever gone so far at such an age," said the 32-year-old Winnipeg lawyer in an interview.

**COMPARED WITH RUSSIAN**  
He compared Fischer to Mikhail Tal, youngest player ever to reach the Russian championship which he won in 1956 at age 19. Tal's attainment compared with that of the younger American, since it is harder to win the Russian title than the American.

"It is quite possible that in a couple of years Fischer will become a grand master," he said.

However, Yanofsky said he doubts Fischer will reach the world championship class in the next round of international competition. Fischer now ranks as an international master—not a grand master—as a result of his victories in the U.S.

The four-year cycle of international events started last year with qualifications in the various international zones. The inter-zone

finals are being held this year, at Potoroz, Yugoslavia, Aug. 15 to Sept. 15. There the top five qualify for the Candidates' tournament in 1959, and the winner then is entitled to challenge the world champion in 1960.

World champion Vasily Smyslov currently is playing a 24-game world title match in Moscow against challenger Mikhail Botvinnik, a former champion. As of April 1 Botvinnik had won four and lost two, with five draws, making the point score Botvinnik 6½, Smyslov 4½. The first to reach 12½ points is the winner.

Tal, who won the Russian title again this year, will likely play in Yugoslavia; Russia may have at least six players in the event.

Fischer was given a round-trip plane ticket to Yugoslavia by a U.S. television show. The other U.S. eligible, 46-year-old grand master Samuel Reshevsky, is not expected to make the trip.

**IN BIG TIME AT 15**  
Yanofsky himself was 15 when he entered the international big time in 1939 in a tournament at Buenos Aires. College and navy service during the Second World War intervened before he won an international master's rating in 1946 at a tourney in Holland.

Yanofsky suggested that Fischer, now wrapped up in chess and with little interest in anything else, still has a few years to go without distractions. His development as he gets older will likely be slower, Yanofsky said.

## THE OLD HOME TOWN By Stanley

The bidding:  
North East South West  
Crawford D'Almeida Becker  
1♣ Pass 2♦ Pass  
2♠ Pass 3♥ Pass  
4♥ 4♠

ing lead — four of spades.  
Crawford had luck dodging  
American team in this deal  
the world championship  
against Italy.

Crawford's two club opening  
was an artificial bid showing an  
enormous hand which he wanted  
to play for game. My two diamond  
response, also artificial,  
simply denied the values for an  
affirmative response.

Crawford now identified his real  
suit by bidding three diamonds,  
and my heart bid showed a bid-  
dable suit. When Crawford raised  
to four hearts, it was clear there  
was a chance for a slam. So I

raised to six. (Six diamonds  
would have been a better bid.)  
A spade was opened. After  
cashing the K-Q of hearts, the ace  
of diamonds was led as a safety  
play. But Chardria ruffed it,  
returned a club, and we were  
down one. There was no way to  
make the contract. The 4-0  
diamond break had defeated us.

We thought at the time the  
result would be duplicated at the  
other table. A contract of six  
diamonds was about a 15 to 1  
shot to make, and it seemed in-  
evitable the other Italian pair  
would reach six diamonds, pos-  
sibly six hearts, and go down one.  
But the bidding at the other table  
was:

**North East South West**  
Siniscalco Rapce Forquet Stidor  
1♣ 1♦ 2♣ 3♠

Siniscalco's club bid was artificial,  
identifying at least 17 high  
card points. Forquet's two club  
bid, also systemic, showed pos-  
session of an ace or two kings.  
It is difficult to explain the  
three notrump bid. Since Siniscalco  
was looking at three kings,  
Forquet had to have an ace for  
his two club bid. A slam con-  
tract was therefore clearly indi-  
cated.

But the wrong bid paid off.  
Rapce showed up with all four  
diamonds and a slam could not  
be made. Siniscalco made nine  
was a chance for a slam. So I

On Monday: Another famous hand is presented by Mr. Becker.

Yesterday's Cryptogram: LOVE THE LITTLE TRADE WHICH THOU HAST LEARNED, AND BE CONTENT THEREWITH—AURELIUS.

## Croydon Airport Will Close Down

CROYDON, England (Reuters) — Croydon, one of the oldest airports in the world, closes this summer.

Thirty-nine years ago, the first British airliner took off from a strip of concrete in South London. This was Croydon's opening ceremony, and it became London's main air gateway up to the outbreak of the Second World War.

Croydon is too near London Airport's control zone for safety to be maintained as airlines become ever bigger and faster and air traffic grows thicker.

There is no room for expansion at Croydon. It cannot accommodate Comet jetliners, turbo-prop Viscounts and piston-engined Strato Cruisers, Constellations and Hermes. Only small aircraft can use its runways and traffic is, by modern standards, negligible.

Aircraft and companies still using Croydon will move to the new Gatwick Airport. By 1959, Croydon will be offered for sale. Its 400 acres are regarded as one of the best potential housing sites within 12 miles of London.

## FIRST AID TO AILING HOUSE

BY ROGER C. WHITMAN

### PLASTIC STUCK TO TABLE

QUESTION: A hot casserole on a plastic fabric doily caused the material to stick to the table. A fuzz was left when the material was pulled off, and it is impossible to remove. How can this damage be repaired?

ANSWER: It may be difficult to take off the remains short of refinishing. Try rubbing the area with the finest grade of steel wool dampened with benzine. The benzine may soften the plastic somewhat. Be careful of fire when using benzine. Some of the residue might be removed also with delicate, careful use of a razor blade. If neither of these treatments is successful, the only recourse is complete refinishing of the table top.

### CLEANING STEAM IRON

QUESTION: Carelessly, we used regular tap water in our electric steam iron. At first, we didn't notice any difference, but now we understand that the manufacturer was right in recommending only filtered water; there is obviously so much deposit inside the iron that it no longer gets adequate steam, although the iron still heats up. How can I clean out the deposit?

ANSWER: Take the iron to a service man. They will take the iron apart, fill with boiling water and have equipment which would blast off the deposit. Costs about \$5, depending on model. You can buy filtered water at drug stores or catch the water which forms when you defrost refrigerator.

### LOCATION OF BATHTUB?

QUESTION: The bathtub is right under the window so that when our shower is used, special precaution must be taken so as not to get water on the window sill. It is also difficult to reach across the tub to open and close the window. Shouldn't there be a building code to prevent placing

the tub and shower in such a position?

ANSWER: You are undoubtedly right about the inconvenient location, but I don't know of any building codes prohibiting this. About the only defense is not to buy the house until the tub has a location to your satisfaction. Normally this certainly isn't an ideal location, all other things being equal!

### POOR CONCRETE MIX

QUESTION: My concrete garage floor is a poor mixture and I get a lot of cement dust and small stones everywhere I sweep. How can I remedy this?

ANSWER: Try applying liquid cement hardener, following label directions (available masonry supplies dealers). If this doesn't help, you'll have to put down an additional layer of concrete. A good mix to use is one part cement to three parts of clean, coarse sand to four parts of aggregate. Be sure to wet down the old concrete beforehand, to prevent absorption of the water from the new concrete and prevent too fast curing.

### LEAKPROOFING AWNING

QUESTION: Before I re-hang the awnings, I would like to make them leakproof. Several developed leaks last year.

ANSWER: Dissolve a pound of shaved paraffin in a gallon of benzine, taking full precautions against possible fire hazard. Much better to do this outdoors, by all means! Spread the awnings as flat and taut as possible, and cover them with the solution. This will fill up all leaks very effectively.

### DAMP CLOSET WALL

QUESTION: One bedroom has a closet that is in the corner of the house. During cold weather, the outside closet walls become damp. Is there any way to prevent this dampness?

ANSWER: Fur out the damp

walls and place blanket insulation between the furring strips. Then cover the furring strips with an insulating wallboard. In addition to this you might place a bag of moisture-absorbing crystals in the closet to reduce the amount of humidity. The crystals are available in most housewares stores and hardware stores.

### SOILED TILE JOINTS

QUESTION: The joints between the tiles in our bathroom look soiled. I have not been able to get the cement clean with soap and water. Is there anything you can suggest to clean them?

ANSWER: Try scrubbing with scouring powder and a stiff scrubbing brush. Scrubbing the cement with a solution of about a quarter cupful of detergent to each pail-

ful of water may help loosen the dirt. If the soil is deeply embedded and the above does not help, rake out the present cement and brush out all loose powder. Wet the inner surfaces with clear water and fill the joints with white portland cement mixed with water to a paste consistency. Wipe off all smears while still wet.

### DIRT FROM HOT REGISTERS

QUESTION: We find that con-

siderable dirt and dust accumulates around the wall registers from our oil burner, hot air furnace. Is there anything we can place behind the registers to help this purpose. It is available at well-stocked hardware stores.

ANSWER: A special fiber glass,
